March 19, 2011 – The final day was canceled due to Navy Flight Ops			

There were 11 challenge attempts, a total of \$55 in launch fees. Joe's second attempt did not launch, therefore, I will return his launch fee. The closest to the 2000 ft altitude was Doug Lucy, followed closely by Joe Zawodny, and then Nick Sutton. Doug will receive \$25 from me at the next launch he attends. The SEVRA club treasury will also receive a deposit of \$25.

Directors Note:

The last time I launched my LongKnife Salute on an I435T, the altitude was 1818. My altitude this time was only 1480.... Wind, fate, rocket gods..... Someone didn't want me to win! ☺
